Follow us on Social Media

Hello and welcome, we are proud to present our new NYTRO CATALOGUE for 2025, packed with innovative 'performance first' products! Over the last 12 months our development team, together with our key team members, have been extremely busy developing lots of new and innovative products, that we are sure you will enjoy using out on the bank.

We have expanded our best-selling Aryzon and Marvelist ranges of rods, adding in some more powerful feeder versions. We have also developed a tight range of classic float rods which have been included in the Marvelist range. In the StarkX range, we have designed a couple of 'specialist' rods for barbel fishing and under the Aryzon sub brand, we have included a new rod, reel and braid range, specifically for baiting up!

For the first time you will also find a small range of telescopic whips and take-apart margin poles up to 6m in length and in the most popular price brackets! Watch this space... there is more in the pipeline!

Besides rods, reels and poles we have also been busy with further developments including fluorocarbon power rig line and a whole range of 'Connect-It' products to complement the success of the top selling SLS36 Seat Box.

We continue to grow and build on the success that Nytro offers and we have also developed more accessories in the 'Targetz', 'Steady Rest' and 'Connex' (terminal tackle items), ranges, plus our brand new TCS Targetz Change System Flat Method Feeders and Moulds.

### **WE CONTINUE TO GROW**

At Nytro, we aim to be the first-choice brand for consumers by offering the best value-for-money, forward-thinking and cutting-edge products. Our growth over the past couple of years is a testament to this commitment. This growth continues into 2025 with many new and innovative Nytro products.

We will keep driving innovation and new product development with a focus on delivering total consumer satisfaction. When it comes to price, aesthetics and performance, you and the consumer can be confident that Nytro products offer the best value for money.

We will also continue to grow our presence on social media and in traditional printed media, to keep anglers informed about our new products. We are constantly expanding our team of anglers to maximize the brand's exposure on social media and where it matters most – out on the bank.

From our UK head office and warehouses in both the UK and the Czech Republic, our product design team, customer service, sales teams, marketing, and management, we wish you and your business all the very best for the coming year.

Enjoy the 2025 NYTRO catalogue and thank you for your trust and continued support.

Team Nytro

- > Screw-down reel seat
- > Supplied in a rod bag
- > Butt caps feature epoxy Nytro logo

## NTR COMMERCIAL SERIES

**CRBN CARBON-CURVE**     **Ø2.5MM TIPS**

This entry-level range of carbon crafted rods are designed with the commercial water angler in mind. Great rods for those just entering the commercial scene and at a very affordable price. Their action is powerful enough to tame small to medium sized carp and they offer a perfect combination and balance, when used in conjunction with the NTR reels.

## IMPAX COMMERCIAL SERIES

**CRBN CARBON-CURVE**  **Ø2.5MM TIPS**

The Impax Commercial rods fall into a popular-price category, offering great value for money. It is amazing to see what our designers have been able to achieve, creating a series of rods that can handle Fl's and big carp alike. These rods have been used, abused and tested to the limit on a wide range of commercial waters, ensuring they withstand what is expected of them. They feature a splendid through-action blank, which offers sufficient backbone to boss and direct hard fighting fish straight into the net!

## IMPAX POWER METHOD SERIES

**CRBN CARBON-CURVE**  **Ø3.5MM TIPS**

The Impax Power Method 80 joins the IMPAX range of feeder rods as its most robust addition. This powerhouse model is designed to boss and land big fish with ease. It's the ideal choice and length fishing 'snake lake' style venues.

Available in both 8ft and 9ft lengths, the Power Method Feeder rods feature a slim 24T Carbon-curve blank with sufficient power reserves. Each rod comes with two 3.5mm tips, one 1.5oz carbon and one 2oz glass tip, equipped with large lined guides for optimal performance. The rod blank is equipped with modern, ultra-light guides, while the butt section is reinforced with a carbon wrap for added durability. The handle merges cork and EVA materials, offering a comfortable and secure grip.

| CODE     | TREF  | DESCRIPTION               | LENGTH    | TR. LENGTH | SECT | TIPS      | C/WEIGHT | LINE RATING      | SU | CTN QTY | RRP    |

## IMPAX ALLROUNDER SERIES

CRBN CARBON-CURVE  Ø2.5MM TIPS

This range of entry-level Impax ALLROUNDER rods with ultra-light minima-style guides, have been developed to offer a range of rods that anglers can fish throughout the year. Whether fishing at close-range for roach and skimmers or long distance for bream, whether at a commercial for carp or in natural venues. The Impax ALLROUNDER does as it says on the tin. All rods come with two dedicated 2.5mm carbon quiver tips. A full range of four different tips are available, from 0.75oz to 2oz.

| CODE     | TREF  | DESCRIPTION                          | LENGTH      | TR. LENGTH | SECT. | TIPS       | C/WEIGHT | SU | CTN QTY | RRP    |

- > 8ft / 2.40m: The 8ft Impax Allrounder classifies as your classic picker rod for close range fishing for roach and skimmers. Or as a light bomb-rod on a commercial.
- > 9ft / 2.70m: The 9ft Impax Allrounder classifies as a quiver rod for close range fishing for roach, skimmers and bream. Or as a light bomb and method feeder rod on a commercial.
- > 10ft / 3.00m: The 10ft Impax Allround is the ideal allrounder when it comes to short to medium distance fishing in natural venues and commercials. The 24T carbon-curve blank offers sufficient backbone to challenge bream and bigger FIs.
- > 11ft / 3.30m: The 11ft Impax Allrounder is perfect for fishing up to about 40m with a classic cage, method or hybrid feeder.
- > 12ft / 3.60m: The 12ft Impax Allrounder is probably the most allround length for fishing up to about . 50-60m with a classic cage, method of hybrid feeder, fishing for bream and carp in still and faster flowing waters.
- > 13ft / 3.90m: The 13ft Impact Allrounder is the to-go-to length when you need to reach longer distances in both still water and running water conditions. The 24T carbon-curve blank offers enough power for reaching distance yet has sufficient reserves when reeling in bigger fish.

## IMPAX CONTINENTAL POWER SERIES

NEW

CRBN CARBON-CURVE    Ø3.5MM TIPS

Power feeder rods in a popular price range, that is what these Impax Continental rods are. Designed for fishing with heavier weights and casting longer distances, especially on the continent. Ideal for faster running waters too. We have selected the most popular length (12ft and 13ft) and casting weights (100 – 120 and 150gr) for this type of fishing, resulting in this range of six different models with a faster and more power action. Allowing for improved balance and lighter weight, these rods are designed with ultra-light minima-style guides. All rods feature two dedicated 3.5mm carbon tips, ranging from 1.5oz to 4oz.

## ARYZON COMMERCIAL SERIES

**30T CARBON-CURVE**  **Ø2.5MM TIPS**

When you are looking for a seamless, powerful, yet forgiving through action rod, in a range that covers just about every discipline on a commercial fishery, look no further! The Aryzon range of rods are exactly that! Starting with the Carp Feeder rod in 9ft, 10ft and 11ft models, for short, medium and long-distance casting. Aryzon rods are lightweight and well balanced, yet offer the right amount of power to be in control of a fish very quickly, especially right before netting.

**ARYZON METHOD FEEDER:** There is also a 12ft Method Feeder which, with its heavier casting weight, allows you to cast distances up to 60-70m. These rods offer sufficient power to take control of larger fish very quickly.

**ARYZON PELLET WAGGLER:** This series also features two, 10ft and 11ft, Pellet Wagglers which are designed for casting floats either short, medium or longer ranges. Aryzon rods are lightweight and well balanced, yet offer the right amount of power to be in control of a fish very quickly, especially right before netting.

## ARYZON DISTANCE POWER BAIT-UP SERIES

CARBON-CURVE

COMPATIBLE WITH:  
ARYZON BAIT-UP REEL

Bait-up rods are becoming increasingly popular for baiting up your swim quicker and with larger quantities of bait. Thereby, a bait-up rod allows you to cast heavier weights more accurately at the intended distance, without the risk of breaking off. We have designed the 12' Aryzon Distance Power Bait-up rod to be powerful enough for casting out big bait-up feeders at medium to long range distances. They are also powerful enough to launch smaller bait rockets and mini spods too. For effortless distance casting, this blank, from the start of the cast loads the right amount of strength to cast a bait-up feeder packed with groundbait, far and accurately. The strength in the tip section of the blank also allows you to empty your feeder with one strong pull.

To compliment the Aryzon Distance Power Bait Up Rod we have also produced the Aryzon Bait-up Reel and Braid.

## ARYZON CONTINENTAL SERIES

GRN CARBON-CURVE Ø2.9MM & 3.4MM TIPS

These rods radiate stealth and power and are designed for fishing big, natural European venues. Superb actions that help the angler to cast further and even more accurately, whilst retaining a controlled bend when playing hooked fish. Ideal rods when fishing for larger species or when heavier feeders are required. The 3.60m is perfect for casting with 60g up to about 60 meters. If longer casts or heavier feeders are required, then the 3.8m and 4.0m versions are the perfect choice.

## ARYZON DISTANCE POWER SERIES

**CRBN CARBON-CURVE**  **Ø2.9MM TIPS**

These fast tapered Distance Power Feeder rods have been developed to cast long distances on bigger venues. The other major advantage of a fast tapered blank is that it helps pick-up the line quicker on the strike, which is important when fishing at long ranges. For advanced casting efficiency these rods come with oversized guides, all the way to the tip. Each rod in the range is supplied with two dedicated carbon tips. A wider range of five different interchangeable carbon tips 1oz, 1.5oz, 2oz, 3oz, 4oz, 5oz and 6oz, are also available.

New for 2025 are the 12'6" and 14' rods that were requested to complement the range for long range distance fishing on fast flowing rivers, where you need to keep as much line out of the water as possible.

With the lighter tips available, these rods work well for a wide range of fishing from targeting roach, skimmers, bream and even carp on larger venues and running water.

## STARKX METHOD SERIES

CARBON-CURVE      Ø3.5MM TIPS

StarkX Method rods are designed to cast heavy Method and hybrid feeders a long way. These rods are designed to withstand the pressure of big casts and playing big fish. StarkX Method rods are designed for fishing large European venues and come in six different models, from heavy to X-heavy actions. All rods feature two carbon quiver tips.

## STARKX BIG RIVER SERIES

**CRBN CARBON-CURVE**  **Ø3.5MM TIPS**

StarkX Big River rods are designed for casting heavy feeders and playing big fish. These blanks are just perfect for fishing larger natural venues and especially fast flowing rivers. Tested to the limit, anglers will appreciate the power that these rods have to offer. The Big River series comes in eight different models from MH to XXH actions with up to 200g casting weight. A variety of five different fully interchangeable 3.5mm quiver tips are available.

## MARVELIST TPS SERIES LIGHT CARP & CARP

**CBN CARBON-CURVE**  **Ø2.5MM TIPS**

The Marvelist TPS series is available in four ranges: Two commercial ranges, the Light Carp and Carp in 9', 10' and 11'. The Allrounder in 11', 12' and 13' plus, the new Power Feeder in 12' and 13'. They have all been designed in close cooperation with Feeder legend and former World Champion, Tommy Pickering. The rods are purposely designed to cover a wide range of fishing styles and for a multitude of species throughout the fishing seasons. The Light Carp and Carp ranges are two-piece rods with equal sections, featuring three, 2.5mm carbon tips. The Allrounder rods are three-piece rods with equal sections, also featuring three, 2.5mm carbon tips, allowing them all to be interchangeable. The rods are built with high modulus 30T and 40T carbon, allowing them to cast very accurately, offering a fast recovery and improved playing action, with sufficient reserves in the spine of the blank.

## MARVELIST NATURAL FLOAT SERIES

NEW

### CRB CARBON-CURVE

The Marvelist rod range was developed in close collaboration with former Float Fishing World Champion Tommy Pickering. They are available in Light and Medium actions to suit a wide range of float fishing conditions. Featuring Minima-style line guides, the 40T carbon blanks are perfectly balanced, slim, and lightweight. They are recommended for reel lines between 2.5 – 4lb (0.12-0.18mm). The rods have a rigid, crisp action with minimal bounce for exceptional line and float control. Additionally, the soft tip action acts as a gentle shock absorber, minimizing the risk of hook pulls and allowing the use of lighter hook lengths.

### Tommy on the MARVELIST TPS SERIES FLOAT RODS

*"The Marvelist rods offer such excellent value for money that I felt a tight range of float rods would make perfect sense. I was able to test them during the Veterans Float Fishing World Champs in Bulgaria and I can honestly say I am chuffed with how good these rods are."*

## IMPAX TELE WHIP WHIP

The Nytro Impax Tele Whip is available in 3m and 4m telescopic lengths. These composite G-fibre poles are ideal for young anglers, newcomers, or anyone on a budget. Nice and light, with a cool design, these poles are perfect for catching roach, perch, skimmers and other smaller species. Very easy to set up by simply extending the whip and attaching a pole rig to the connector at the tip.

- > Composite G-fibre material
- > Telescopic
- > Lightweight
- > Pre fitted connector at the tip
- > Telescopic design
- > Available in 3m and 4m lengths

| CODE     | TREF | DESCRIPTION   | WEIGHT | LENGTH | SECTIONS | TRANSPORT LENGTH | SU | CTN QTY | RRP    |

## WHOPPA STOPPA 6M CARP POLE

With a 24-elastic rating, Nytro's Whoppa Stoppa margin pole is a take-apart, 6m, bomb-proof margin pole, that features two elasticated top kits! The pole comes pre-elasticated with an 8-10 hybrid elastic in the pre-bushed tip and in addition, the package includes an extra take-apart top two kit, which is pre-elasticated with 18+ hybrid carp elastic for bigger carp.

- > Lightweight, composite G-fibre blank
- > Exceptionally strong
- > Amazing 24 elastic rating
- > Pre-fitted PTFE bushes
- > Two pre-elasticated top kits (tip: 8-10 and kit 2/1: 18+)
- > Comes fitted with winder bung and key
- > Designed to catch big fish
- > Take-apart design

## MARGIN MUNCHER 45 CARP POLE

The Nytro Margin Muncher 4.5m is an exceptionally strong margin pole, perfect for landing the biggest carp when fishing commercials and carpodromes. These bomb-proof take-apart poles feature a progressive action and are designed for use with heavy elastics. Ideal to land large fish quickly. The Margin Muncher comes pre-fitted with a PTFE bush and with a winder bung and extraction key. The number two section comes with an extra carbon reinforcement to allow for a puller bush to be fitted. At 4.5m it is perfect for margin fishing or for those new to pole fishing.

- > Carbon blank
- > Exceptionally strong
- > Pre-fitted PTFE bush
- > Comes fitted with winder bung and key
- > Extra CF reinforced No 2 section
- > Take-apart design

| CODE     | TREF  | DESCRIPTION               | WEIGHT | LENGTH | SECTIONS | TRANSPORT LENGTH | SU | CTN QTY | RRP    |

## POWER EDGE CARP 60

If you are looking for a robust margin pole, look no further! With its carbon reinforced sections, extra wall thickness and strong joints, the 6m Power Edge provides the perfect combination of strength and rigidity. It allows the angler to fish heavier elastics for catching bigger and more powerful fish. It's the perfect solution for challenging scenarios that need a strong pole.

- > Carbon reinforced blank
- > Extra wall thickness and strong joints
- > Pre-fitted PTFE bush
- > Pre-fitted roller puller
- > Take-apart design

## IMPAX LONG CAST 5500

With the new Impax Long Cast 5500 we know we have something special. When you thought our value for money proposition could not get any better, wait until you see this new feeder reel. It comes with a cross-winding wormshaft oscillation system and a long cast spool, protected by a line-guard system. Besides a very stylish design of mat black with some Nytro red accents, the Impax Long Cast 5500 also features a quick-drag with oversized front-drag knob and multi-disc drag system. In addition it features two oversized metal line clips, a teardrop shaped line roller and heavy-duty bail arm wire, preventing deformation. The handle easily folds away for transportation.

## SOLUS SUPER FEEDER 5500

The Solus Super Feeder 5500 is a robust feeder reel designed for medium to long distance casting. The lightweight S-curve cross-winding oscillation system inside the reel offers a multitude of advantages. It keeps the reel surprisingly light, allows for perfect spooling of both braid and mono on the medium-shallow feeder spool and it is exceptionally strong to withstand rugged handling. The Solus Super Feeder features a quick-drag system for rapid and precise control when playing bigger fish. A very functional reel for most allround feeder fishing conditions on natural venues.

## SOLUS DISTANCE FEEDER 6500

The Solus Distance Feeder 6500 is a robust, big capacity feeder reel designed for most medium to long distance casting. For safety purposes, the Solus Distance Feeder features a line-guard system to prevent the line from tangling underneath the spool. The lightweight S-curve cross-winding oscillation system inside the reel offers a multitude of advantages. It keeps the reel surprisingly light, allows for perfect spooling of both braid and mono on the medium-shallow feeder spool and it is exceptionally strong to withstand rugged handling. The Solus Distance Feeder features a quick-drag system for rapid and precise control when playing bigger fish.

## STARKX

### CARBON LONG CAST 4500, 5500, 6500

The NyTRO StarkX Carbon Long Cast reels feature a wormshaft system to perfectly distribute mono or braid on to the extra-long-nose aluminium spool. They are ideal reels for effortless long-distance casting. The line-guard system prevents any tangling of the line. This model is available in three sizes, 4500, 5500 and 6500 to cover most, if not all, distance casting conditions. The 7+1 stainless steel ball bearings allow for an extremely smooth operation. They are ideal casting machines and compliment rods such as the StarkX Big River and Method or the Aryzon Continental and Power Feeder series.

- › Twist-free extra smooth line roller
- › Compact ambidextrous aluminium CNC handle
- › Comfortable T-bar handle grip

## ARYZON 3000, 4000 & 5000 REELS

Finished in glossy black with red accents, the Aryzon is a series of stunning looking reels, built for performance. The Aryzon series is available in three sizes, 3000, 4000 and 5000. With a 6+1 ball bearing system they perform extremely well in all manner of situations. They offer a silky-smooth retrieve and good line-lay for both mono and braid. Featuring a finely adjustable, multi-disc drag system on the spool. Ideal when matched with Aryzon commercial rods.

## ARYZON LONG CAST 5000

The Aryzon Long Cast is a robust, large capacity feeder reel for long range casting. The wormshaft oscillation offers the perfect line-lay and the floating rotor line guard helps to prevent any tangles. Surprisingly light for its size this 6+1 ball bearing reel retrieves close to 1m of line per turn. Two high impact captive line clips help with your accuracy and the quick torque drag system keeps you in control of a big fish. The Aryzon Long Cast combines really well with the Aryzon Continental and Starkx Big River or Method rods.

## ARYZON BAIT-UP 5000

NEW

We have designed our Aryzon Bait-Up 5000 reel to hold 200m of Aryzon Bait-up Braid and that is how we supply it, already spooled and ready to use! It is powerful enough to cast big bait-up feeders over medium to long range distances, effortlessly. Besides a very stylish design of gunsmoke with black and some Nytro red accents, the Aryzon Bait-up reel also features a quick-drag with oversized front-drag knob and multi-disc drag system. Other features include two oversized metal line clips, a teardrop shaped line roller and heavy-duty bail arm wire, preventing deformation. The screw-in handle eliminated play on the handle and easily folds away for transportation.

Designed to be compatible with the Aryzon Bait-up Rod and Braid on pages: 15 and 45.

COMES FULLY LOADED WITH 200M OF ARYZON BAIT UP BRAID

## MARVELIST POWER FEEDER SERIES

Designed in close collaboration with former World Champion Tommy Pickering, these Marvelist Power Feeder reels are top choice for the angler that demands the absolute best and will cover most, if not all, feeder fishing situations.

Whether fishing commercials or natural venues, still water or fast flowing rivers, the Marvelist Power Feeder reels are up to the job. We have designed these reels to saltwater standards, which means the aluminium body offers maximum strength and protection to the internal mechanism, even when the fighting gets hard. The solid stainless steel main shaft and heavy-duty internal structure of the Marvelist reels make them true fighting machines.

For 2025 we have launched one size bigger, the Marvelist 6000 Power Feeder. A reel that is for fishing bigger venues holding bigger fish and for casting longer distances.

## SUBLIME X8 SINKING BRAID

This high-quality, 8-strand, fast sinking braid, has been specifically designed for feeder fishing. Featuring a sinking core, no-stretch X8 round braid, smooth surface and high tensile strength. These are just some of the key characteristics that make this braid ideal for feeder fishing. Available in three diameters on 150m spools.

- > High quality sinking braided main line
- > Designed for feeder fishing
- > 8-strand round braided precision diameter
- > Superb knot strength
- > No stretch for maximum bite registration
- > Abrasion resistant smooth coating
- > Available in 0.08mm, 0.10mm, 0.12mm
- > Supplied on 150-meter spools

## SUBLIME SINKING MONO

The Nytro Sublime Sinking Feeder Mono has been designed for feeder fishing. As the line sinks the transparent deep bronze color disappears against most backgrounds. It is strong, yet supple, so it casts really well and it offers a high knot strength. Ideal as a reel line and just as good when used as a shock leader, as it stretches well and hugs the bottom.

- > High quality sinking monofilament
- > Designed for feeder fishing
- > Precision diameter
- > Strong, supple and superb knot strength
- > Abrasion resistant
- > Available in six popular diameters
- > Supplied on 150-meter spools

## POWER RIG FLUORO

NyTRO's Sublime Power Rig Fluoro is the perfect fluorocarbon line for tying shock leaders and hooklengths. During its design, we focused on enhancing knot strength, a feature typically lacking in fluorocarbon lines. With the new Sublime Power Rig Fluoro range, we've successfully achieved this goal! Our lines enable stronger knots and with a few stretches between your thumb and index finger, it will lose memory and straighten naturally when taken off the spool.

- > Superior knot strength
- > Low visibility
- > Abrasion resistance
- > High density
- > Minimal stretch
- > UV resistance
- > Supplied on 50m spools

# ARYZON

## HI-VIZ FEEDER SPOD BRAID

Our high-quality, Aryzon Hi-Viz Bait-up X8-strand, super smooth, round braid, has been designed for use with baiting up reels. Featuring no-stretch, for more accurate casting as well as emptying your bait-up feeder on a simple pull back. It has a smooth medium-pitch surface, high tensile strength, superb knot strength and of course is abrasion resistant. The no-stretch function of our Aryzon Hi-Viz Bait-up braid results in improved power transfer, where more power is directly transmitted from the rod to the bait-up feeder. This efficient power transfer enables the angler to cast heavier loads further, which is essential for reaching distant baiting areas.

- > High quality braided main line
- > Designed for baiting-up
- > 8-strand round braided precision diameter
- > Superb knot strength
- > No stretch for enhanced casting accuracy
- > Efficient power transfer
- > Abrasion resistant smooth coating
- > Available in 0.16mm
- > Supplied on 200-meter spools

KEEP NETS

NYTRO

## SPACE CREATOR COMMERCIAL CARP KEEPNETS

The ultimate solution to net limits on commercial fisheries. The reversed rectangular top ring creates more space, which is ideal for where strict weight limits per net is practiced on modern-day commercial fisheries. These nets are manufactured using ultra durable, carp-friendly mesh.

- > Reversed rectangular shape, 50x40cm
- > Strong plastic rings
- > Durable carp-friendly mesh
- > Two strong webbing pull-through straps inside for weighing-in
- > Equipped with double, universal screw thread
- > Robust pressure-lock adjustable tilt system
- > Available in 2.5m and 3m lengths
- > Particularly stylish design
- > Provides a professional look

# SILVERFISH PRO KEEPNETS

This Nytro Silverfish Pro comes in two different sizes, 3m and 4m which makes it ideal for fishing both commercials and natural venues. On the bankside of the net we have reinforced the fabric on the corners of the rings to prevent any damage when rubbing against sticks, stones or other debris. The aluminium bottom ring is protected on all corners. The aluminium rings at the bottom allow the net to sink faster in deeper water. The top to second ring features a nylon fabric with Nytro logo to prevent the hook from tangling in the net. There are two strong webbing pull-through handles inside to make weighing-in very easy. The keepnet features a pressure-lock, finely adjustable tilt system.

- > Rectangular shape, 40x45cm with an oversized 50x40cm top ring
- > Top ring with branded nylon fabric
- > Last three rings in aluminium protect against distortion
- > Fast sink
- > Durable quick-dry 5mm round mesh
- > Two strong webbing straps inside for weighing-in
- > Protected edges against wear and tear
- > Equipped with double, universal screw thread
- > Robust pressure-lock adjustable tilt system
- > Available in 3m and 4m lengths
- > Particularly stylish design
- > Provides a professional look

## QUICK-DRY HAIR MESH

This 2.5mm quick-dry fine hexamesh net is ideal when fishing with hair rigs. The fine mesh will stop the hair rig tangling when landing and unhooking fish.

- > Durable lifting-assist nylon spreader block for safe and easy fish handling
- > Sturdy red aluminium frame
- > Quick-dry
- > Black and grey 2.5mm hexamesh hair mesh fabric
- > Available in three sizes (16"/40cm, 18"/45cm and 20"/50cm)

| CODE     | TREF  | DESCRIPTION                              | FRAME WIDTH | FRAME HEIGHT | NET DEPTH | SU | CTN QTY | RRP    |

## QUICK-DRY BIG FISH

These nets feature quick-dry 8.5mm lightweight fabric, making netting fish with longer net handles much easier. The fabric does not absorb water and the 8.5mm mesh flows through the water with ease, the ideal net for rivers. The special fabric is super-soft avoiding any damage to fish. Water and slime are not absorbed and these nets dry exceptionally fast and barely smell after use.

- > Durable lifting-assist nylon spreader block for safe and easy fish landing
- > Sturdy red aluminum frame
- > Black 8.5mm quick-dry and smell-free fabric
- > Available in three sizes (18"/45cm, 20"/50cm and 22"/55cm)

| CODE     | TREF  | DESCRIPTION                             | FRAME WIDTH | FRAME HEIGHT | NET DEPTH | SU | CTN QTY | RRP    |

## LATEX HAIR MESH

This 2.5mm quick-dry, latex dipped fine hexamesh net, is ideal when fishing with hair rigs. The softness of the material avoids any damage to fish. The latex dip makes this net even more durable and longer lasting. It also features a durable lift-assist spreader block allowing bigger fish to be lifted with ease.

- > Durable lifting-assist nylon spreader block for safe and easy fish landing
- > Sturdy red aluminum frame
- > Quick-dry
- > Black and red 2.5mm latex dipped hexamesh fabric
- > Available in three sizes (16"/40cm, 18"/45cm and 20"/50cm)

| CODE     | TREF  | DESCRIPTION                          | FRAME WIDTH | FRAME HEIGHT | NET DEPTH | SU | CTN QTY | RRP    |

## LATEX MATCH ALLROUND

These nets have been designed for landing bigger fish and are available in two sizes. Totally fish-friendly and manufactured with a quick-dry, latex dipped, hexamesh fabric. The sides are 8.5mm so the net moves through the water with ease. The base of the net is manufactured with a 2.5mm rubber dipped hair mesh, to avoid the hook or hair from tangling in the net. The softness of the material avoids damage to the fish. The latex dip makes this net even more durable and longer lasting.

- > Durable lifting-assist nylon spreader block for safe and easy fish handling
- > Sturdy red aluminum frame
- > Quick-dry
- > Black and red 8.5mm and 2.5mm latex dipped hexamesh fabric
- > Available in two large sizes (18"/45cm – 20"/50cm)

| CODE     | TREF  | DESCRIPTION                               | FRAME WIDTH | FRAME HEIGHT | NET DEPTH | SU | CTN QTY | RRP    |

## LATEX BIG FISH

Ideal for netting big fish even in running water. The larger 8.5mm latex dipped hexamesh fabric moves through the water with ease. The latex protected mesh makes these nets hook-proof. The softness of the material avoids damage to the fish while the latex dip ensures durability because slime and smell are not absorbed. These nets dry faster and barely smell when totally dry.

- > Durable lifting-assist nylon spreader block for safe and easy fish landing
- > Sturdy red aluminum frame
- > Quick-dry
- > Black and red 2.5mm latex dipped hexamesh fabric
- > Available in three sizes (16"/40cm, 18"/45cm and 20"/50cm)

| CODE     | TREF  | DESCRIPTION                          | FRAME WIDTH | FRAME HEIGHT | NET DEPTH | SU | CTN QTY | RRP    |

## BIG SCOOPA 5500 LATEX

The ideal net for netting big carp and other species. The net has a diameter of 55cm with 9mm latex dipped mesh material, to protect the fish and making the mesh hook-proof. The softness of the material avoids damage to the fish. The latex dip ensures durability because slime and smell are not absorbed. These nets dry faster and barely smell when dry.

- > Durable lifting-assist nylon spreader block for safe and easy fish handling
- > Sturdy red aluminum frame
- > Quick-dry and virtually smell-free
- > Black 9mm latex dipped hexamash fabric
- > Available in 55cm

## DOUBLE-MESH FAST NET

These nets are available in two of the most popular sizes, 45cm and 50cm. They are manufactured with an ultralight aluminium frame and super soft, fish friendly 6mm double mesh. This makes them incredibly manoeuvrable in the water allowing the angler to land fish quicker.

- > Durable lifting-assist nylon spreader block for safe and easy fish handling
- > Sturdy lightweight aluminium frame
- > Black 6mm, super soft and fish friendly double mesh fabric
- > No smell absorption
- > Available in two sizes (18"/45cm and 20"/50cm)

| CODE     | TREF  | DESCRIPTION                           | FRAME WIDTH | FRAME HEIGHT | NET DEPTH | SU | CTN QTY | RRP    |

# MONO GHOST NET

This 7mm square knitted mono-mesh ghost net allows quicker water flow when netting and does not spook the fish. Ideal when fishing on running waters.

- > Durable lifting-assist nylon spreader block for safe and easy fish handling
- > Sturdy red aluminum frame
- > Quick-dry
- > No smell absorption
- > Transparent nylon ghost mesh
- > Available in two sizes (18"/45cm and 20"/50cm)

## RIPPLE BARS

NEW

**CONNECT IT**  
SEATBOX ACCESSORIES

Nytro Ripple Bars are designed for use with rod rest heads, butt rests, pole grips, and pole socks. They are available in three variations: Single (short, medium, and long), double (medium and long), and even a long triple. The double and triple models feature two threads on the uprights, allowing for the attachment of multiple accessories. Additionally, they are useful for holding pole sections when not in use. Nowadays, double ripple bars are often used for fishing with two rods, attaching a single rod rest to each screw thread.

They are compatible with almost any seat box or feeder chair, thanks to the supplied inserts (25mm and 30mm) or without an insert for 36mm fittings.

# WUGGAGGE & FISHTHARRE

**SUBLINE**  
HARD-SHELL 6-ROD HOLDALL

LUGGAGE & FISH CARE

# SUBLIME LUGGAGE

This premium range of match luggage has been designed for intensive use by the modern-day feeder angler. It is extremely practical, looks great and thanks to the incredibly strong PVC material, it is exceptionally rugged and robust. This well-designed range literally covers just about all the feeder angler's needs. From rod holdalls to carryalls, from cooler bags to keepnet bags and even tip tubes, Nytro has it covered. Every care has been taken to design luggage that will offer safe storage on and off the bank. Simply Sublime!

## SUBLIME 600D HARD-SHELL HOLDALLS

These hard-shell holdalls come in three different lengths and are designed to hold two, four and six made up ready rods. The central dividers keep the reels apart and protected to avoid any damage during stow-away and transport. Rods can be secured with Velcro straps inside. Fully lined and padded inside for extra protection. The hard shell that folds about the rods offers maximum protection during transport and storage. The separate storage areas within are spaciouly designed leaving nothing to chance. All handles and shoulder straps are designed for maximum comfort. The handles are positioned to balance the bag when carrying and covered with a neoprene which gives a nice secure and comfortable grip. The adjustable shoulder straps are fully padded and feature a non-slip surface for comfortably carrying when on your shoulder.

The Sublime 2-ready rods Holdall is the most basic version, offering all the afore mentioned advantages. The holdall offers one compartment separated by the padded protection divider between the reels. With a total length of 195cm this holdall is ideal for storing two-section rods up to 12ft/3.6m.

The Sublime 4- and 6-ready rods Holdalls are available in 165cm – 180cm and 195cm with additional pouches and sleeves on both sides of the holdall. These are the most versatile holdalls in the range and offer maximum storage facilities for rods, reels, brollies, landing net handles, distance sticks, tip tubes and even a margin pole. Sufficient space and

- > Hard-shell cover for maximum rod and reel protection

# SUBLIME ACCESSORY CARRYALL MEDIUM

This medium size Sublime Accessory Carryall is rectangular with a front facing pocket offering the ideal space for your most essential accessories. We designed this bag with a low profile so all your gear is easily accessible and the bag stands-up straight even when you have taken out most of your gear. The bottom is reinforced with anti-slip pads to keep the bag in position, even on a sloping bank and to prevent moisture penetrating when on a wet surface.

- > Heavy-duty 600D durable fabric
- > Easy-clean PVC outside
- > Padded lining
- > Rugged reinforced base
- > Water repellent
- > Thick padded shoulder strap with anti-slip surface
- > Soft neoprene handle and balanced grip positioning for extra comfort

## SUBLIME NET FLOAT

A simple but very functional bit of kit is the elasticated Sublime Net Float. No fiddling with adjustment bands, just mount this to the top of the landing net handle and screw-on your net. The Sublime Net Float offers enough buoyancy to keep just about every net head floating without much effort and in position ready to scoop.

- > Nylon fabric
- > High buoyancy foam
- > Elasticated central slot
- > Size 10cm

## SUBLIME NET & TRAY BAG

In the current environment of maximum weight limits for keepnets, many of the commercial anglers need to carry multiple nets. The Sublime Net & Tray bag offers space for three keepnets along with any heads. Plus, it features a large front pocket with two straps for side trays, riddles or extra nets.

Just like the other bags and carryalls in the Sublime range, the Sublime Net & Tray Bag comes with neoprene covered handles for maximum comfort when carrying your gear to and from your peg.

NB: This Net & Tray Bag is ideal in combination with the Waterproof Single Keepnet Bag, keeping your wet and dry nets separated.

- > Heavy-duty 600D durable fabric
- > Easy-clean PVC outside
- > Rugged reinforced base
- > Water repellent
- > Soft neoprene handle and balanced grip positioning for extra comfort
- > Branded webbing straps
- > Durable SBS-quality zippers and branded pullers
- > Stylish design

## SUBLIME WATERPROOF SINGLE KEEPNET BAG

The Sublime Single Keepnet Bag is a 500D waterproof PVC fabric bag that is ideal to store your wet keepnet (keeping them separate from dry ones). With a size L60xW5xH57, we have designed it big enough to hold larger square nets, including our Space-Creator range.

- > Heavy-duty 500D Waterproof PVC fabric
- > Waterproof
- > Easy-clean
- > Branded webbing straps
- > Durable SBS-quality zippers and branded pullers
- > Size L60xW5xH57cm

# NYTRO SUBLIME ELASTICATED ROD PROTECTOR

The best protection for your feeder rods are the Sublime elasticated tip and butt rod protectors. The top and bottom cover are made of neoprene to maximum protection. In the center the sections are held together with a Velcro-neoprene strap. The stretchable strap makes this product suitable for rods of multiple lengths and for both two and three section rods to be packed and stored safely.

| CODE     | TREF | DESCRIPTION                       | SU | CTN QTY | RRP    |

|----------|------|---------------------|----|---------|-------|
| 22400040 | T497 | NEOPRENE ROD STRAPS | 1  | 250     | €8.95 |

# NYTRO UNHOOKING MAT

With more and more fisheries demanding unhooking mats for landing bigger fish, we designed this stylish black unhooking mat with the Nytro logo on the side. It is manufactured using sturdy 600D PVC outside material with a 2cm foam padding ensuring the fish is protected while unhooking on the bank.

The mat easily folds-up in three sections and is secured for transit with two Velcro straps. Ideal for the coarse angler as it simply fits inside just about every keepnet bag.

- > Rugged 600D PVC outside material
- > Padded 2cm foam inside
- > Easy folding and transport
- > Size L100xW48xH2cm (folded size L34xW48xH7cm)

| CODE     | TREF  | DESCRIPTION   | LENGTH | WIDTH | HEIGHT | SU | CTN QTY | RRP    |

| 22400038 | T1108 | UNHOOKING MAT | 100CM  | 48CM  | 2CM    | 1  | 15      | €19.95 |

# NYTRO CRADLE

This Nytro branded cradle offers maximum protection for the fish when unhooking or when taking pictures. The cradle is manufactured using heavily padded nylon fabric for maximum protection, plus a 3cm foam mattress inside. The total size of the cradle is L100xW60xH22cm offering sufficient space and protection for the fish. The cradle comes with two webbing straps and a soft touch grip handle for transportation. Simply fold and zip-up to pack away and store.

- > Padded soft nylon material
- > Foam 3cm mattress inside
- > Fold and zip-up to stow-away and transport
- > Size L100xW60xH22cm (folded size L61xW48xH25cm)

# ACCESSORIES

## EVA CONTINENTAL FEEDER RESTS

The Nytro EVA Continental Front Rests are designed for feeder fishing. They are available in two different sizes (30cm and 50cm), covering most feeder fishing requirements. This rest is manufactured from a high-density EVA material, offering maximum protection for your rods. Both rests are stable and feature a 45° upturned ripple side to prevent the rod from sliding along the rest in windy conditions or when undertow pulls the tip. The other side is straight so you can move your rod, pull on the line and move your feeder slightly, triggering fish to bite. The universal thread fits just about every feeder arm or bank stick. These feeder rests are easy to use and offer great value for money.

- > Stable front rest for feeder fishing
- > One 45° upturned rippled side
- > High-density EVA material
- > Colour black and red
- > Maximum stability and protection for your rod
- > Universal attachment thread
- > Available in two sizes (30 and 50cm)

| CODE     | TREF | DESCRIPTION                 | LENGTH | SU | CTN QTY | RRP    |
|----------|------|-----------------------------|--------|----|---------|--------|
| 21900001 | T719 | CONTINENTAL FEEDER REST 300 | 30CM   | 3  | 36      | €12.95 |
| 21900002 | T997 | CONTINENTAL FEEDER REST 500 | 50CM   | 3  | 27      | €17.95 |

# STEADY-REST

The Nytro Steady Rests are the ideal rod rests for just about all modern-day feeder fishing. The range consists of a variety of six front and rear rod rests. All models are double injection-moulded, ensuring a solid, rigid base, with soft moulded parts where rod needs most protection. The Nytro STEADY SLIDING RESTS are an industry-first and allow the angler to have the front and rear rest in any position.

## STEADY METHOD REST

This is the perfect rest for feeder fishing on commercials, the Nytro Steady Method Rest. Featuring a one-sided protruded sickle that prevents your rod from being yanked of the rest. You can lay your rod in multiple positions along the rest. All sections feature a small slot so you can make minor adjustments to the tension on the tip.

- > Method fishing rod rest
- > One sided protruded sickle safeguarding the rod on vicious takes
- > Four rod positions
- > Soft rubber grip surface
- > Slotted rod sections
- > Double-thread screw

| CODE     | TREF | DESCRIPTION        | SU | CTN QTY | RRP    |
|----------|------|--------------------|----|---------|--------|
| 21900003 | T831 | STEADY METHOD REST | 3  | 36      | €14.95 |

## STEADY SLIDING METHOD FRONT REST

You asked us to design a bigger Method Rest with a sliding function so it could be put in any position. That is exactly what we have done! A bigger, sliding rest for feeder fishing on commercials, the Nytro's Steady Sliding Method Rest. Featuring a one-sided protruded sickle that prevents your rod from being 'yanked' off the rest! You can now lay your rod in multiple positions along the rest and slide the base all the way left or right, to improve the angle on your feeder arm. All sections feature a small slot so you can make minor adjustments to the tension on the tip.

The Steady Sliding Method Rest allows you to fish two rods along side each other.

- > Large, sliding Method fishing rod rest
- > One sided protruded sickle safeguarding the rod on vicious takes
- > Ten rod positions
- > Soft rubber grip surface
- > Slotted rod sections
- > Double-thread screw

| CODE     | TREF  | DESCRIPTION                      | SU | CTN QTY | RRP    |
|----------|-------|----------------------------------|----|---------|--------|
| 20190009 | T1386 | STEADY SLIDING METHOD FRONT REST | 3  | 36      | €24.95 |

# STEADY ADJUSTABLE FRONT REST

The Nytro Steady Adjustable Sliding Front Rest is an industry-first front rest design. Incorporating an internal sliding system, allowing you to lock or set the rest in different positions, to both left or right. The rest features a soft rubber grip surface so the rod will not slip or damage. The Steady Rod Sliding Front Rest is designed with two, low raised edges, to position your rod against in windy conditions or in flowing waters. Fitted with two upright ends preventing the rod from shooting off the support when you have a bite.

- > Industry-first Steady Rod Sliding system
- > Soft rubber grip surface
- > Two low raised edges to position your rod against
- > Double thread screw

| CODE     | TREF  | DESCRIPTION                  | SU | CTN QTY | RRP    |
|----------|-------|------------------------------|----|---------|--------|
| 21900008 | T1108 | STEADY ADJUSTABLE FRONT REST | 3  | 36      | €19.95 |

# STEADY SLIDING MINI REST

The Nytro Steady Sliding Mini Rest is an industry-first where adjustable rests are concerned. We have designed this as a back rest allowing precise positioning of your rod butt. This enables you to move your rod slightly, to release or increase the tension on your rod tip without moving the feeder.

The Steady Sliding Mini Rest can also be used as a mini front rest. The uprights on both sides prevent the rod from being pulled off the rest.

The rest is fixed in position under pressure from the universal screw thread, so when you tighten the rest, it remains in the selected position.

- > Industry-first Steady Rod Sliding system
- > Versatile front or rear rest
- > Soft rubber grip surface
- > Ideal to release or add pressure to your rod tip
- > Double thread screw
- > Uprights on both sides preventing the rod from being pulled off

| CODE     | TREF | DESCRIPTION              | SU | CTN QTY | RRP    |
|----------|------|--------------------------|----|---------|--------|
| 21900005 | T942 | STEADY SLIDING MINI REST | 3  | 36      | €16.95 |

# STEADY ADJUSTABLE BUTT REST

The Nytro Steady Adjustable Butt Rest is an industry-first where adjustable back rests are concerned. We have designed this versatile back rest not only to precisely position your rod, but also to allow you to move your rod to release, or increase the tension on your rod tip, without moving the feeder. You can fix the rest with the universal screw-fitting under the butt grip, or you can leave it loose so you can constantly adjust, according to the circumstances. These rests are ideal in both still and flowing water conditions. The butt grip is designed to hold rods with varying handle diameters. The duo-level allows the rod to be loosely positioned in the top or pushed downward into the base for extra grip. The soft grip material allows the rod to be held firmly in place when needed, while still allowing a quick release of the rod when you get a bite or when you need to cast again. Perfect when fishing on higher banks where your rod points downwards and you need extra grip

- > Industry-first Steady Rod Sliding system
- > Adjustable duo-level butt rest
- > Soft rubber grip surface
- > Double-thread screw

| CODE     | TREF  | DESCRIPTION                 | SU | CTN QTY | RRP    |
|----------|-------|-----------------------------|----|---------|--------|
| 21900007 | T1108 | STEADY ADJUSTABLE BUTT REST | 3  | 36      | €19.95 |

## STEADY SLIDING DOUBLE DUO BACK REST

You see more and more feeder anglers, fish two rods. And when we launched the Steady Sliding Duo Butt Grip you asked us to design one that would hold two rods. Which is what we did with this industry-first Steady Sliding Double Duo Back Rest.

We have designed this versatile back rest not only to precisely position one or two rods, but also to allow you to move your rod slightly to release, or increase the tension on your rod tip, without moving the feeder. You can fix the rest with the universal screw-fitting under the butt grip, or you can leave it loose so you can constantly adjust, according to the circumstances.

The butt grips are designed to hold rods with varying handle diameters. The duo-level allows rods to be loosely positioned in the top or pushed downward into the base for extra grip. The soft grip material allows the rods to be held firmly in place when needed, while still allowing a quick release of the rods when you get a bite or when you need to cast again. Perfect when fishing on higher banks where your rod points downwards and you need extra grip.

This backrest is also ideal when fishing a sleeper-rod when practice fishing.

- > Industry-first STEADY REST sliding system
- > Two-rod positioning adjustable duo-level butt rests
- > Soft rubber grip surface
- > Double-thread screw

| CODE     | TREF  | DESCRIPTION                         | SU | CTN QTY | RRP    |
|----------|-------|-------------------------------------|----|---------|--------|
| 20190010 | T1386 | STEADY SLIDING DOUBLE DUO BACK REST | 3  | 36      | €24.95 |

## STEADY DUO BUTT REST

The Nytro Steady Duo Butt Rest is designed to hold rods with varying handle diameters. The duo-level allows the rod to be loosely positioned in the top or pushed down for extra grip. The soft grip material allows the rod to be held firmly in place when needed, while still allowing quick release when you get a bite or when you need to cast again. Ideal for use when fishing on higher banks where your rod points downwards and you need extra grip.

- > Duo-level butt rest
- > Soft rubber grip surface
- > Double thread screw

|----------|------|----------------------|----|---------|-------|
| 21900006 | T497 | STEADY DUO BUTT REST | 3  | 108     | €8.95 |

## STEADY U-REST

The Nytro Steady U-Rest is truly versatile and will fit most rod handle sizes. It has a soft rubber inlay which prevents damage to the rod or landing net handle. It can be used as a rear or front rest.

- > Versatile front/rear rest
- > Soft rubber grip surface
- > Ideal to keep your landing net in place in windy conditions
- > Double-thread screw

| CODE     | TREF | DESCRIPTION   | SU | CTN QTY | RRP   |
|----------|------|---------------|----|---------|-------|
| 21900004 | T497 | STEADY U-REST | 3  | 108     | €8.95 |

# KLIP ON

Klip-On is a product you did not even know you needed until you've seen it! They simply attach to your bait tub, EVA-tub or on to a 19mm edge of a side tray. Manufactured from soft latex material, they are lightweight and easy to use. We designed these with strong but flexible material, so Klip-Onz fit on virtually all bait and EVA tubs.

- > Extremely versatile
- > Strong and flexible
- > Ideal for saving space and staying organized

## KLIP-ON HANDLE & ROD REST

A very handy Klip-On for every 19mm side tray upright. It will hold your landing net handle, and top kits or rod handles as well. The strong but flexible material allows rod handles and tops kits to be fixed without damaging them. A perfect and extremely versatile product in the Klip-On range.

- > Extremely versatile
- > Strong and flexible
- > Ideal for saving space and staying organized
- > Fits most rod handles, landing net handles and pole top kits

| CODE     | TREF | DESCRIPTION               | SU | CTN QTY | RRP   |
|----------|------|---------------------------|----|---------|-------|
| 22000004 | T442 | KLIP-ON HANDLE & ROD REST | 3  | 36      | €7.95 |

## KLIP-ON BAIT TRAY

Do you have trouble leaving pre-baited hooklengths on your side tray and then losing them? So did we! Do we designed a Klip-On Bait Tray that safeguards them and gives them a dedicated place on your side tray. We also added some holes to store your baiting needles and drills, right where you need them.

- > Extremely versatile
- > Strong and flexible
- > Ideal for saving space and staying organized
- > Fits just about every bait and EVA tub
- > Five dishes for pre-baited hooklengths
- > Cavities for baiting needle and bait drill

| CODE     | TREF | DESCRIPTION             | SU | CTN QTY | RRP   |
|----------|------|-------------------------|----|---------|-------|
| 22000002 | T442 | NYTRO KLIP-ON BAIT TRAY | 3  | 36      | €7.95 |

## KLIP-ON CHOPPER HOLDER

So many of us use a worm chopper but where to put it? Put the Klip-On Chopper Holder on your bait tray or EVA-tub and you always have a dedicated position for it. Is also features space for a baiting needle, a small disgorger, bait drills and even some hooklengths that are ready to be used.

- > Extremely versatile
- > Strong and flexible
- > Ideal for saving space and staying organized
- > Fits just about every bait and EVA tub
- > Cavity for worm chopper
- > Cavities for baiting needle and bait drill or small disgorger
- > Five slits to safeguard hooklengths, ready to use

| CODE     | TREF | DESCRIPTION            | SU | CTN QTY | RRP   |
|----------|------|------------------------|----|---------|-------|
| 22000001 | T442 | KLIP-ON CHOPPER HOLDER | 3  | 36      | €7.95 |

## KLIP-ON DIP TRAY

Do you use bait dips? They are often standing here or there but never in the same place. We recognized that and have designed a Klip-On Dip Tray that will hold a multitude of different sizes. If you use more than one, just add more to your bait tub or EVA-tub to keep them neatly together. They also fit most pots/tubs with bandums, sinkers, mini boilies and wafers.

- > Extremely versatile
  - > Strong and flexible
  - > Ideal for saving space and staying organized
  - > Fits just about every bait and EVA tub
- > Cavity for most bottles and pots with flavours and dips
  - > Fits most tubs with bandums, sinkers, mini boilies and wafers
  - > Cavities for baiting needles and bait drills

| CODE     | TREF | DESCRIPTION      | SU | CTN QTY | RRP   |

### STIFF FEEDER LINK 2 PER PACK

The Connex Stiff Feeder Links are specifically designed for fishing with a free-running rig. Thanks to the stiff fluorocarbon material, the hook link will rarely get tangled. Incorporating the Connex Sliding Feeder Bead, allows the Stiff Feeder Link to slide effortlessly over the mainline. These Stiff Feeder Links come in two 0.45mm Fluorocarbon links with a safety snap for up to medium-heavy and two 0.60mm Fluorocarbon links with a hooked snap for long range and fishing with heavy feeder.

NEW

### FEEDERGUM LINK 3 PC X 10 PER PACK

The Nytro Feeder Gum Links feature high-quality Connex swivels, a rolling swivel on one end and a quick-change swivel on the other end and black heat-shrink tubing to neatly finish it off. Feeder Gum Links are available in 4" (10 cm) and 6" (15 cm) versions, with the Power Gum having a diameter of 0.8 mm. Each pack contains three links.

| CODE     | TREF | SIZE    | SU | CTN QTY | RRP   |
|----------|------|---------|----|---------|-------|
| 22100028 | T177 | 4"/10CM | 10 | 1000    | €3.19 |
| 22100029 | T177 | 6"/15CM | 10 | 1000    | €3.19 |

NyTRO's Free Running Swivel Blockers come in two sizes, medium and large. They are the ideal solution for tying a sliding feeder rig where it blocks a sliding swivel, or a Sliding Feeder Bead on the mainline to create a natural boom. Especially when you twist the line and pull the knot inside the Blocker Bead.

| CODE     | TREF | SIZE   | SU | CTN QTY | RRP   |

Stopitz are the perfect line stoppers, supplied on a metal wire for trouble-free application. They slide effortlessly onto your line to secure wagglers or feeders in place. The unique profile of Stopitz ensures they sit straight on your line, creating a streamlined setup. Being slightly longer than conventional stoppers and featuring flattened ends, they are ideal for tying running rigs for feeder fishing. When the feeder hits the stopper, it creates the perfect boom!

| CODE     | TREF | SIZE  | SU | CTN QTY | RRP   |
|----------|------|-------|----|---------|-------|
| 22100034 | T125 | LARGE | 10 | 1000    | €2.25 |

The NyTRO Wagglers Kit is ideal for securely attaching loaded Pellet Wagglers to your main line without using shot, which can often damage the line and cause lost fish. To assemble, move the line stoppers one at a time onto your line as the Stopitz are designed to be tight. Once on your line, simply adjust each stopper to the desired position for the perfect waggler setup. Each pack contains five sets.

# FEEDERLINK

ACCESSORIES

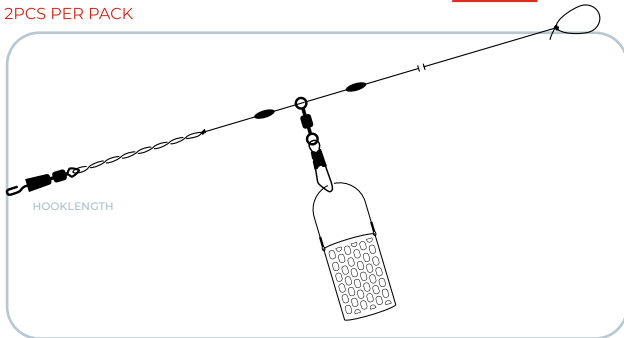

NYTRO

A series of four of the most popular ready-to-use feeder link systems. Precision tied with high quality mono incorporating Nytro's Connex swivels and stoppers. Looped on one side so you can use straight from the package and easily to connect it to your mainline.

- > Ready to use
- > Precision tied
- > Quality monofilament
- > Connex swivels and stoppers

## FEEDERLINK ALLROUND NEW

2PCS PER PACK

Tied with a safety snap for your feeder cage and a quick-change swivel on a twizzled boom to attach your hook length, keeping it away from your feeder. With two stoppers you can fish this rig as a bolt or semi-bolt rig system. Generally used with an open-end feeder cages.

| CODE     | TREF | SIZE | SU | CTN QTY | RRP   |
|----------|------|------|----|---------|-------|
| 22100030 | T194 | *    | 10 | 1000    | €3.49 |

## FEEDERLINK STILLWATER NEW

2PCS PER PACK

Typical, minimalistic and easy to use stillwater feeder link. Tied with a safety snap swivel on a twizzled boom and a quick-change swivel for your hooklength on a kicker side line, keeping your hooklength away from the feeder. Generally used with an open-end feeder cage, bullet or window feeder.

| CODE     | TREF | SIZE | SU | CTN QTY | RRP   |
|----------|------|------|----|---------|-------|
| 22100031 | T194 | *    | 10 | 1000    | €3.49 |

## FEEDERLINK RUNNING WATER NEW

2PCS PER PACK

A standard feeder link which is simple, super effective and above all it hardly ever gets tangled. The big advantage is that the fish does not feel any resistance when picking up the bait, so when the conditions are tough and the fish are shy, this is the system to use. Simply attach your feeder to the hooked snap swivel, your hooklength to the quick-change swivel and off you go!

| CODE     | TREF | SIZE | SU | CTN QTY | RRP   |
|----------|------|------|----|---------|-------|
| 22100032 | T194 | *    | 10 | 1000    | €3.49 |

## FEEDERLINK HELICOPTER NEW

2PCS PER PACK

The perfect Helicopter rig, ready from the packet. Simply attach it to your mainline, put a feeder on the hooked snap swivel and attach a hooklength on the quick-change swivel. The quick-change swivel sits between a set of stoppers so you can adjust the height.

| CODE     | TREF | SIZE | SU | CTN QTY | RRP   |

# TARGETZ

- > Three sizes S – M – L, in various weights
- > Designed in close cooperation with Tommy Pickering
- > High-grade plastic body lifts faster on retrieve than a wire cage feeder avoiding obstacles on the bottom
- > Custom designed for precise long-distance casting
- > Precision engineered rounded holes, enhancing bait release and improving water flow
- > Aerodynamic placement of the weight for added distance casting
- > Maximum water flow to minimize resistance in the water on the retrieve
- > Supreme bait presentation
- > Ideal for a wide variety of different bait
- > Lead free

## TARGETZ BULLET FEEDERS

These lead-free Targetz Bullet Feeders are totally different! They are available in three sizes, small – medium and large and come in a variety of popular casting weights. As a result of the specific placement of the bullet weight, Targetz Bullet Feeders cast further, fly straighter and cause less resistance on the retrieve. The precision designed holes allow for a better water flow, making them ideal for delivering and releasing a variety of different bait. Targetz Bullet Feeders offer supreme bait presentation.

## TARGETZ OPEN-END CAGE FEEDERS

The lead free Targetz Open-end Feeders are not just another open-end feeder! They are different and are available in three sizes, small, medium and large and come in a variety of popular casting weights. Designed with a contoured side, Targetz Feeders cast further, fly straight and offer less resistance in water on retrieve. The precision designed holes allow for a better water flow, making them ideal for delivering and releasing a variety of different bait. These feeders lay flat on the bottom, offering superior bait presentation. The debossed weights offer added contact with the bottom which is perfect when fishing over features.

- > Three sizes S – M – L, in various weights
- > Designed in close cooperation with Tommy Pickering
- > High-grade plastic basket rises up faster on the retrieve than wire cage feeders, avoiding obstacles on the bottom
- > Custom designed for precise long-distance casting
- > Precision engineered rounded holes ensure enhanced bait release and improved water flow
- > Weight-forward placement of weight on the side of the feeder avoids unbalance and enables added accuracy and casting distance
- > The contoured weight allows the feeder to lay straight every time it touches the bottom
- > Debossed weight and logo on the weight for added contact with the bottom, perfect when moving the feeder
- > Maximum water flow to minimize resistance in the water on the retrieve
- > Supreme bait presentation
- > Ideal for a wide variety of different bait
- > Lead free

# TARGETZ

- > Three sizes S – M – L, in various weights
- > 6x6mm square wire frame
- > Custom designed for precise long-distance casting
- > Aerodynamic placement of the weight for added distance casting
- > Maximum water flow to minimize resistance in the water on the retrieve
- > Supreme bait presentation
- > Ideal for a wide variety of different bait offerings
- > Lead free

## TARGETZ 6MM WIRE BULLET FEEDER

The TARGETZ range of feeders has been expanded with a series of leadfree Wire Cage Bullet Feeders. They are available in three sizes, small – medium and large and come in a variety of popular casting weights. As a result of the specific placement of the bullet weight, Targetz Bullet Feeders cast further, fly straighter and cause less resistance on the retrieve.

| CODE     | TREF | DESCRIPTION                 | SIZE   | WEIGHT | SU | CTN QTY | RRP   |

## TARGETZ 7.5MM WIRE BULLET FEEDER

In addition to the regular 6mm Wire Cage Bullet Feeders, we have also added a medium size feeder with a 7.5 x 7.5mm square wire frame. Ideal for baiting up or when quick release of bait is required. Targetz Bullet Feeders cast further, fly straighter and cause less resistance on the retrieve.

- > Size M, in various weights
- > 7.5mm x 7.5mm square wire frame
- > Ideal for baiting up or when quick release of bait is required
- > Custom designed for precise long-distance casting
- > Aerodynamic placement of the weight for added distance casting
- > Maximum water flow to minimize resistance in the water on the retrieve
- > Supreme bait release and presentation
- > Ideal for a wide variety of different bait offerings
- > Lead free

## TARGETZ 6MM BAIT-UP FEEDER

The Targetz Bait-up Feeder M18 is specifically designed for situations when there is a need to apply larger amounts of bait or feed. The Bait-up Feeder features a mesh top and a looped and crimped twisted double mono, for extra strength when casting longer distances. Ideal for feeding ground bait or loose feed like corn, hemp, pellets, chopped worm and maggots, topped off with a layer of groundbait.

- > Size medium 18gr
- > 6 x 6mm wire frame
- > Ideal for baiting up larger volumes of bait and loose feed
- > Looped and crimped
- > Lead free

Ideal in combination with the Bait Up rod and reel (see pages 15 and 40).

# TARGETZ

## TARGETZ 6MM WIRE CAGE FEEDER

The TARGETZ range of feeders has been expanded with a series of lead-free Open-end wire cage feeders. They come in three different sizes, small – medium – large and in a variety of popular casting weights. Designed with a contoured side, Targetz Wire Cage feeders cast further, fly straight and offer less resistance in water on the retrieve. These feeders lay flat on the bottom, offering superior bait presentation. The debossed weights offer added contact with the bottom which is perfect when fishing over features.

- > Three sizes S-M-L in various weights
- > 6 x 6mm square wire frame
- > Custom designed for precise long-distance casting
- > Weight-forward placement of weight on the side of the feeder, avoids unbalance and enables added accuracy and distance casting
- > The contoured weight allows the feeder to lay straight every time it touches the bottom
- > Debossed weight and logo on the weight for added contact with the bottom, perfect when moving the feeder
- > Maximum water flow to minimize resistance in the water on the retrieve
- > Supreme bait presentation
- > Ideal for a wide variety of different bait offerings
- > Lead free

## TARGETZ TCS INLINE FLAT METHOD FEEDERS NEW

Flat Method feeders are more popular than ever and are a very efficient way of targeting species such as carp, bream and tench. These feeders are designed to present bait in a way that attracts fish to a concentrated area, making them highly effective.

We are excited to present our new range of Leadfree Targetz TCS Inline Flat Method Feeders, crafted with innovation and environmental responsibility in mind. Here are the key features that set our feeders apart:

- > Flat profile: Lightweight, moulded hydrocarbon-polymer body combined with leadfree balanced weighted base
- > Bait retention: Equipped with a raised back end and a recessed platform that holds groundbait or pellets securely
- > Weight-distribution: Even weight-distributed on the bottom of the feeder allows for long and accurate casting
- > Efficient bait release: Our Method feeders are designed to release bait efficiently, ensuring that a small amount of bait is consistently available around the hook
- > Interchangeable system: Our TCS Inline Method Feeders feature an interchangeable system with a variety of different stem kits
- > Ease of use: The straightforward design allows for quick and easy bait loading and rigging. See our three sizes of Method Molds
- > Versatility: Our Leadfree TCS Inline Flat Method Feeders come in various sizes and weights
- > Eco-friendly design: Made from lead-free materials, these feeders are environmentally responsible, reducing the ecological impact on water bodies and ensuring a safer habitat for aquatic life

Overall, our new Leadfree TCS Inline Flat Method Feeders are a versatile and effective feeder for modern feeder fishing. Providing a reliable method for presenting bait and attracting fish to the hook. Embrace the future of fishing with our eco-friendly and highly efficient feeders, designed for best performance and environmental sustainability.

# TCS STEMKIT

We have developed three distinct stem kits to complement the TCS Inline Method Feeders: two inline versions in varied lengths and one elasticated stem kit. The inline stem kits are ingeniously designed so that a rubber hood is not needed, as it is already incorporated into the stem design. This innovation makes them slicker and more streamlined, enhancing their performance and ease of use.

# TARGETZ FLAT METHOD LATEX MOLD

Discover our innovative Method feeder moulds, available in three sizes—small, medium, and large. Offering significant advantages over conventional latex moulds. The symmetric design ensures you never have to worry about the front or back of the feeder, while the slightly deeper mould makes adding a double layer to your method feeder easier than ever. With convenient side wings for easy opening, your moulded feeder comes out perfectly every time. Made from high-quality latex with a special coating, these moulds guarantee that the bait always releases effortlessly.

## 3/4 JACKET +BIB'N'BRACE WP

NEW

The Nytro Fishing Suit is designed for ultimate comfort and protection in all weather conditions. The jacket is an ideal length for easy movement while seated. Featuring a high neck for maximum protection against the elements and waterproof zips on both pockets on the chest and the main central zip. Neoprene cuffs with thumb holes guard against draughts while the waterproof hood and adjustable toggle cord ensures complete weatherproofing. With three fully waterproof pockets, you'll have ample storage for all your essentials, plus one more internal pocket. The bib & brace is equipped with three fully waterproof zips with storm flaps and pullers, wide opening adjustable ankle areas and adjustable shoulder and chest straps for a perfect fit. Stay dry, comfortable and ready for action with the Nytro Fishing Suit.

### Jacket

- > Ideal length

## NYTRO WALL DISPLAY

Enhance your retail display area with a bespoke wall display unit which are now available in one-meter sections! Finished in black and complete with a logo light box and shelving, the panelling enables the use of display hooks to hang various items of merchandise.

Each shelf comes with a slide in POS brand strip to identify the brand. Easy to put together and separate one-meter add-ons can be added to increase the display width.

Available to order on our B2B or talk with your sales manager who will be happy to advise on cost and fitting.

- > 100CM (1M) wide racking
- > Base-shelf is 47CM
- > Mid-shelf (x2) is 37CM
- > Solid 40CM back panel
- > Six 30CM perforated back panels
- > Canopy includes internal light unit
